
OUT ON THE LIMB

with George Vierhus

READERS OF "THE Limb" over the years have been quite complimentary of its contents, as a general rule.

But there also have been some severe critics.

A few have claimed that we have been too facetitious at times or that the writer has tried to be "too smart" and, as a consequence, has fallen on his face.

Others, when backed into a corner, admit that they sorta enjoy the drivel that appears weekly in this space because it covers such a varied field and no attempt is made to offer a panacea for the world ills.

Some have offered, however, that the continuity by paragraph to paragraph is "interesting".

In fact, a few have suggested that they have been able to read it backwards (the last paragraph first and so on) and it makes as much sense as if they had read it from the beginning to the end.

We take that as a compliment.

Sort of.

Anyway, this lack of continuity was brought home to us recently when Erlene Cleveland, who transfers our original copy onto the IBM, started out with page 5 instead of page 1.

And y'know, that was the darndest thing to catch in proof-reading.

It made as much sense one way or 'tother.

If "sense" is the right terminology to use.

-0-

WHEN A MEMBER OF A household goes into the hospital, naturally there is a certain amount of disruption in the home.

You know what we mean; the worry, the visiting hours, and things like that in general.

But just imagine how traumatic it would be for a household of two, if a husband goes to the hospital one day for minor surgery and then his wife is taken by ambulance the next day to the same hospital ?

At least both were in the same hospital at the same time.

But on different floors.

That's what happened to Jim Schafer, assistant vice-president of Colonial Savings in Campbell, and his wife, Jann.

Jim was in Good Samaritan for minor surgery on a Thursday.

On Friday, his wife was stricken and also ordered by her doctor to Good Sam.

Jim, who at the time of Jann's admittance was in a semi-groggy state, didn't even know his wife was on the floor below him until later.

Jim got out on Sunday, while Jann wasn't released until Tuesday, so he was on his own at home for a spell.

Recovering on his own also.

Some fun, uh?

Going to the hospital at any time is not our idea of a pleasant experience, whether as a patient or a visitor.

But the timing in the Schafer case, in our book, was atrocious.

As both Jim and Jann undoubtedly agree.

AS A LONG-TIME SUPporter and friend of Congressman Charlie Gubser, who has been the U.S. representative of this district for 16 years, we were sorry we had to "demote" him at a recent Campbell Redevelopment Agency meeting.

The City Council is the "agency". Once a month the Council adjourns as a council to sit as the "agency" which has been established as the first step in the redevelopment program for the downtown area.

Anyway, the minutes of a previous agency meeting reported that a letter had been received from "Senator" Charles S. Gubser.

Just before the minutes were approved, we submitted

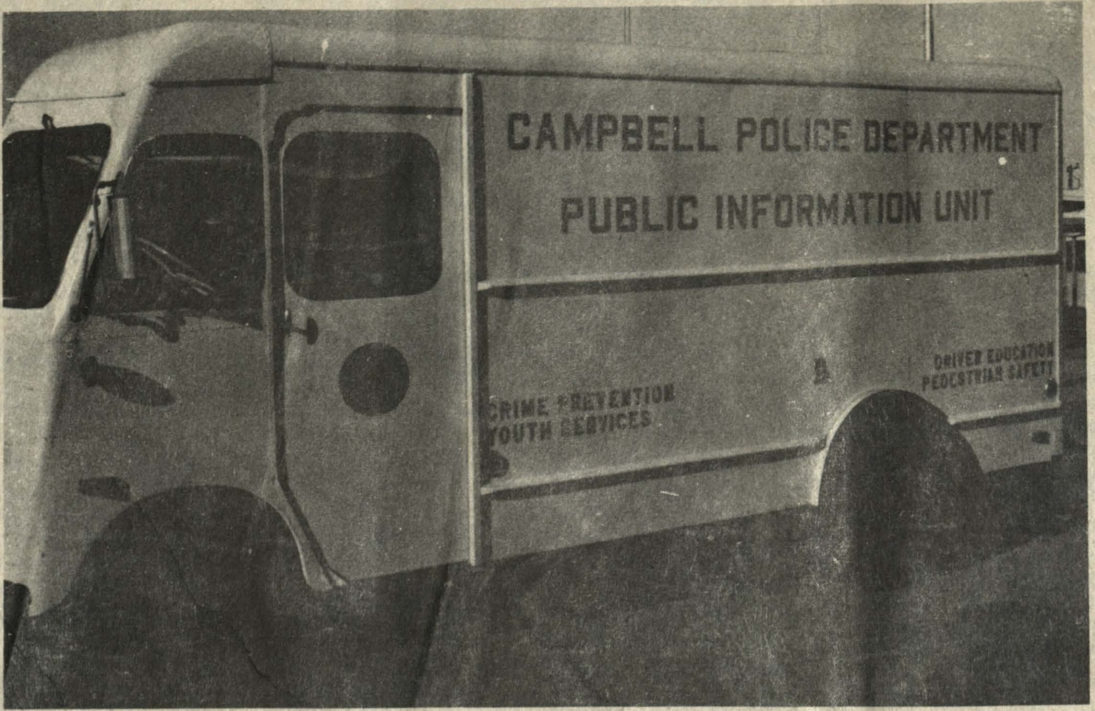
the Hub of the West Valley
Since 1895

Vol. 78 No. 5 Wednesday, February 4, 1970 10¢
378-9136 35 Dillon Avenue, Campbell, California



FOR YOUR INFORMATION—The public information unit of the Campbell Police Department will be on display Sunday, Feb. 8, at 2 p.m. at the Campbell Plaza Shopping Center, Winchester and Budd Ave. The van will be fully equipped. There will be informative material on hand relative to the latest in crime prevention, riot control and driver education. Audio visual slides and motion pictures will also be shown in the van.

On Sunday afternoon

Police department to "show off" unique mobile unit this Sunday

Presentation of the new information unit of the Campbell Police Department will take place Feb. 8 at 2 p.m. at the Campbell Plaza Shopping Center, Winchester and Budd Ave., according to Police Chief John Morgan.

The new unit consists of a van which was donated by the San Jose Mercury-News. It has been refitted by various business firms and civic groups in order to bring the police department in closer touch with the public.

The van will present the various functions of the police department through literature, audio slides and movies, and will also show the various types of crime prevention available to the public. Riot control equipment will be exhibited as well as driver education and a test center will allow citizens to test their reaction time.

Following the Feb. 8 viewing, the van will be shown at Macy's Department Store in San Jose during Crime Prevention week, Feb. 14.

According to Chief Morgan, the van will be in one of the five shopping centers in the area on a regular schedule and will also be available for schools and civic groups.

It will be manned by one of the regular police officers assisted by volunteers from the wives of the police department.

During the "ribbon-cutting" ceremonies Sunday, a plaque will be presented to the city of Campbell listing the donors of the services that made possible Campbell's unique mobile information unit.

Chief Morgan listed those who contributed work or supplies as follows: San Jose Mercury-News, van; Campbell Fire Department, lettering; Baker Trailer Sales, wiring; Blue Hills Carpets, carpets; Bob's Body Shop, body work.

Ken's Cabinet Shop, cabinet work; McKinley-Young Electric Co., lighting fixtures; O'Keefe Body Shop, painting; Rae's Interiors, upholstery.

Rocket Car Wash, cleaning and waxing; San Jose Plating Works, chrome work; Campbell Lumber Co., lumber for paneling; Valley Athletic Supply, plaque; and the National Safety Council who coordinated efforts of the volunteers.

The PT&T and PG&E supplied pamphlets.

Boys caught robbing homes

Three Campbell Elementary School youths were booked into juvenile hall Monday afternoon after they were caught pilfering a home on N. Llewellyn.

Mrs. Marcia Hamilton, 33 N. Llewellyn Ave., arrived home to find her back door standing wide open and a boy was seen running from the house. Investigation of the residence found that a window had been broken and the house was being pillaged when Mrs. Hamilton's arrival frightened off the thief.

The boy was seen jumping the fence and then running down Dot Ave. Campbell police officers apprehended him on the Campbell Elementary School grounds and he indicated that two other boys were involved in the burglary and in at least two others in the area.

The boys then took officers to a boat stored at 671 Nello Dr. where they had stored their loot and planned on spending the night. They had not been home, for several days. The stolen items, including watches, radio and jewelry were returned to the owners.

Other police action during the week involved three cases of drugs, all adults.

On Monday night

City hall may get final okay

Based on the points hammered out in a study session Saturday, the City Council on Monday night could authorize going to bid for Campbell's long-awaited city hall. With site acquisition costs and basic furnishings, the city facility is estimated to cost $1,178,100.

The estimated cost for the building as developed in the study session is $742,900.

In the three-hour session Saturday, the councilmen discussed various means of cutting costs, still retaining the basic features of an attractive and functional city hall based on the working drawings.

If the study session discussion is officially approved next Monday night, the floor space of the city hall will be retained as in the working drawings. But the public works wing will only be "shelled out" to be completed later. The public works staff will then continue to operate in their present quarters. "Shelling out" instead of completing the wing could result in a savings of $47,000.

A full basement would be constructed, but this, too, could be partially shelled at a savings of $13,000. Reduction in outside fixtures, such as planter boxes, etc., could save another $21,000. Savings on landscaping were estimated at $6500.

The results of the study session indicated that it was possible (provided the bids received are comparable to the estimates) that the estimated budget for the city hall could be balanced.

However, the councilmen indicated that, in order to completely furnish the city hall, it might necessitate a 10-cent increase in the operating tax rate over a two-year period, depending on what the fiscal status of the city would be at the end of this fiscal year. A hike in the tax rate of that nature would bring in about $50,000 annually to apply on the furnishing phase of the facility.

In their study session on Saturday, the councilmen indicated that they favored the upper tile roof design for the building, a full basement and that the bid for the city hall should include demolition of

Meet on Tuesday, Feb. 10

Group seeks to improve creek

How the Los Gatos Creek area from Campbell to Vasona can be developed into recreational uses will be "explored" at a meeting next Tuesday at the Campbell City Hall.

All interested persons and representatives from governmental agencies having jurisdiction along Los Gatos Creek have been urged to attend the "town hall" session of the Los Gatos Creek Development Committee.

The meeting has been called for 7:30 p.m. in the council chambers of the city hall. Dr. Hugh I. Schade, chairman of the County Parks and Recreation Commission and also of the creek group, will preside.

Formation of the Los Gatos Creek Development Committee was initiated by the Parks and Recreation Commission of Campbell. Mrs. Edith Morley, a long-time member of the local commission, serves as this city's representative on the creek group. Carl Kuhn, assistant to Campbell City Manager Bob Stephens, has also taken an active part in committee work.

The purpose of next Tuesday's meeting is to explore future action as to the possible development and utilization of the potential recreational aspects of the Los Gatos Creek area between Campbell Ave. and Vasona Park.

A report on the progress to date made by the committee will be made and a review of the Santa Clara Flood Control

(Continued on Page 2)

Council to hear more of cable TV

Basic reasons why a second franchise for cable television should be approved by the city will probably be aired at the City Council meeting next Monday, Feb. 9, by Santa Clara County CATV, applicants for the new franchise.

The Council is expected to set a hearing in March on the franchise situation to decide whether a second franchise should be granted. A non-exclusive franchise was granted two years ago to another concern.

Two members of the Youth Advisory Commission, Rusty Hammer and Mary Ann Chalmers, are scheduled to appear at the Council meeting Monday to ask Council support for a Youth Conference tentatively set for next month.

Up again, Monday, with modifications approved at the last meeting, is the ordinance that will allow the conversion of residences into offices in some cases. The ordinance had been recommended by the Planning Commission. The Council has specified that there should be some control over the exterior of the buildings before a conditional use permit could be granted.

The Council next Monday may also take action on the problem of non-delivery of an automobile ordered from a San Jose concern.

Gasoline feeds business fire

Arson is being investigated by Campbell fire officials following a fire late Friday night at 330 Railway Ave. The fire fighters arrived on the scene to find the double doors of the business building on fire after being drenched with gasoline. An empty gallon gasoline can was lying in front of the doors.

The building is owned by G. T. Wolfram of 961 Carola Ave. and was being used by F. L. Bradshaw of 1231 Lovell Ave. for repairing and rebuilding large trucks.

The fire was extinguished with only minor damage after being reported by Mrs. Hugh Moore of 240 S. First St. who saw flames flickering through her window.

RAINDROPS

No rain fell during the last week, leaving the total rainfall at 9.01 inches. Last year at this time 13.75 inches of rain had been recorded with normal at 9.23 inches.

January rainfall amounted to 5.36 inches.

For City Council

Doetsch, Podgorsek file papers

Councilman Ralph Doetsch, who will have completed eight years on the City Council in April, this week filed his nomination papers for a third term.

Also submitting his nomination papers for a council seat was Bill Podgorsek, vice-chairman of the Parks and Recreation Commission.

Two positions are open on the Council - Mayor Homer Hyde has announced that he will not seek reelection.

In addition to the two council positions, the city clerk and city treasurer terms expire.

Both of the incumbents, City Clerk Dorothy Trevethan, in office since 1954, and City Treasurer Velma Olds, who was first elected in 1958, have filed for reelection.

Filing time for the city positions opened last Thursday and will close at noon on Thursday, Feb. 19.

The city election will be held on April 14.

On February 17

Rising costs force Campbell high school district to ask for tax increase

On Tuesday, Feb. 17, voters in the Campbell Union High School District will be asked to approve a 35-cent increase in the maximum operating tax rate for the next five years.

The trustees, following the recommendation of a Citizens Advisory Committee, is asking that the rate be upped from $1.35 to $1.70 per $100 assessed valuation.

Dr. Nicholas Montesano, district superintendent, points out that the $1.35 rate was established in 1965-66 school year and that rising costs during the past five years have made it imperative that the district again receive authorization from the electorate for the increase.

The superintendent also emphasizes that the present $1.35 rate is the lowest in the state for a high school district and that $1.70 rate will still be below the average of the high school districts in the county which is $1.78.

Without the tax increase there will have to be a drastic curtailment of the educational program and services in the district, the superintendent explains.

District officials believe that the increase is necessary to continue to provide the type of quality education that the people expect and desire.

As a specific example of rising costs on a minor scale, Dr. Montesano cited textbooks which averaged $4.50 five years ago now cost approximately $6.

The cost of living, he added during the past five years has increased about 5% per year which is approximately what the tax rate increase represents.

The superintendent said also that the courses of study have expanded in recent years and that the schools today must now cover entire fields that were non-existent a short time ago.

In science, for example, there are now multiple approaches in teaching compared to a standard single concept in past years.

The ceiling for a district's operating tax that can be set without an election was established by the legislature in 1932, an unrealistic period to use by comparison with today.

The Campbell Union High School District operates eight complete high schools, as well as a continuation high school, with a total enrollment of 14,000.

During the past five years two of the high schools (Branham and Prospect) and the continuation school were built. Eight of the nine, incidentally, have been built since 1950. But maintenance costs, as the schools grow older, also increase and add to the rising cost picture.

Dr. Montesano said that the district's cost per pupil was $629 compared to state averages of $735 and $739 for seven county districts.

Another comparison district officials make is the total operating budget for the district. Five years ago the district budget totalled approximately $10 million. The district's current budget for the fiscal year is about $14 million.

Editorial

Developing the creek

There is probably no single project in the history of this community that has received more whole-hearted moral support from all citizens than the improvement of the Los Gatos Creek area within the city limits of Campbell and extending to Los Gatos.

Yet after all these years little has been done in a major way in the development or improvement of the creek area.

In no way are we belittling the coordinated efforts of interested citizens of this community that resulted in the planting of trees along the banks and a general cleaning up of the area.

Although these efforts were commendable and a great improvement was made in the situation, the fact remains that on the whole the results were barely evident...Just a dent, one might say, was made.

What is so frustrating is that the potential is so great.

The Los Gatos Creek area from Vasona to Campbell Park could become, we have long contended, one of the scenic spots in the Valley and could be utilized to a great extent for recreational purposes, provided some of the roadblocks that now exist, are removed.

Members of the Campbell Parks and Recreation Commission have recognized the potential of the creek area and Mrs. Edith Morley, of the Commission, heads a sub-committee that is making a valiant attempt to interest the various jurisdictions that are involved, as well as private citizens, in the development of the Los Gatos Creek area in a coordinated manner.

An "unofficial" group has been formed, largely through the efforts of Mrs. Morley, assisted by Carl Kuhn, assistant to Campbell's city manager, encompassing representatives of the various agencies involved in the creek development, whose goal is to formulate specific recommendations for future creek development.

Called the Los Gatos Creek Development Committee, the group has scheduled a "town hall" meeting for next Tuesday, Feb. 10, at 7:30 p.m. in the council chambers of the Campbell City Hall.

Dr. Hugh I. Schade, chairman of the County Parks and Recreation, as chairman of the Los Gatos Creek Development Committee will preside at the meeting next Tuesday.

Present also will be representatives of the County Flood Control and Water District to review and explain plans the district has for the future development of its facilities on the creek.

Obviously, the Flood Control and Water District has probably the most important role to play in the future of the creek area, for the district, in a sense, controls its destiny.

Yet we have long been convinced that District will continue to cooperate with other tax-supported agencies, as well as the citizens in general, in the development and improvement of the creek area.

Vasona Park, one of the most attractive recreational sites in the area, shows what can be done in this respect, i.e., expanding of a basic percolation pond into a beauty spot.

The 10-acre county park on the creek off Dell Ave. is another illustration of how the ponds and adjacent areas can be utilized for park and recreational purposes.

We are well aware that the problems of creek development from Camden Ave. (Page Dam) to the Campbell city limits, including the attractive city park at Campbell Ave., are much more complicated than mere landscaping of a percolation pond.

Yet we have always felt that with the potential that is present along Los Gatos Creek (despite the modern method of channeling) much more should be done to make it usable as a recreational facility, aside from the fact that its present unattractive state presents a poor "window" for Campbell as seen from the freeway.

Probably one of the first steps that could be taken in any future development would be the location of hiking and bike trails that would connect Campbell with Vasona.

We concede that getting across the Camden-expressway monstrosity would be a major hurdle to take. Yet we are convinced that with proper direction and engineering it could be accomplished.

We are also aware that, until the Santa Clara County Flood Control and Water District completes the work on the channelization and alignment of the creek, it will be difficult to draft any definite plans for other improvements.

We are convinced, however, that the Los Gatos Creek Development Committee, is approaching the problem in the proper manner by involving the jurisdictions that are concerned and attempting to coordinate the efforts.

We think the meeting next Tuesday, Feb. 10, should prove to be of tremendous value, if for nothing else than to get some definite picture of what the flood control people are planning and how their efforts can be correlated to others who are also vitally concerned with the creek.

Despite the fact that there seems to have been a tendency in the past for the various jurisdictions to go their separate ways without any thought of cooperating with others, we hold that the Los Gatos Creek should be developed for the benefit of the most.

We commend the Campbell Parks and Recreation Commission for initiating the movement to improve the creek and sincerely hope that the Los Gatos Creek Development Committee will come up with a workable plan.

All interested persons are urged to attend the town hall meeting next Tuesday at the city hall to participate in the discussion of this vital issue of the future of Los Gatos Creek.

MORE ABOUT

that the correction to Charlie's status in Washington should be made in the record.

Sorry, Charlie.

But you probably are willing to settle just for reelection to the congressional seat you have occupied for so long and so ably.

-0-

APARTMENT CONstruction in this area during the past few years is a phenomena that many of us have taken more or less in stride with only a nostalgic sigh or two for the good old days.

There has been a definite trend in recent years toward the "multiples".

And it will probably get worse, if money unloosens and the thousands of apartments now on the drawing boards become reality.

But there are still an awful lot of people around who are not resigned to living in an area of apartment complexes.

They are beginning to question the reasoning behind some of the developments that take orchard land adjacent to a well-established single-family section and construct multiple complexes on the property.

They admit there is a need for apartments.

But everywhere?

Everyone, of course, is well aware of the high price of property. And, obviously, the higher the density the better the return.

For example, there is a proposed huge apartment development that is in the planning stages in the Phelps-Payne sector in the county.

The homeowners in the area are pretty much upset about the whole idea.

We are well aware that the $ sign is the principal factor involved in these developments.

But still in all, we are sympathetic to many of the homeowner groups.

We don't feel that every piece of vacant land has to have an apartment complex on it, just because there can be a bigger return on the investment.

Good planning doesn't necessarily mean that in our book.

-0-

THERE ARE NOT TOO many large parcels of undeveloped land left within the city limits of Campbell.

But we venture to predict that the chances of so-called R-1 developments being proposed for those few pieces are pretty slim.

At least the first time around.

We sincerely believe that there is still a need for single-family areas in this community.

Even if the trend seems to indicate otherwise.

An area does not have to be rezoned for apartments just because the request is made.

-0-

WHAT DEPARTMENT DO you call, if you find a dead dog or cat in the gutter?

Our office had to check that out recently when a cat that apparently had been killed by a passing car the night before was found in the gutter a short distance away from our joint.

The proper procedure, we learned, seems to be to call the police department, who in turn notifies the humane society to come and pick up the dead body.

So inexperienced were we in the proper protocol that our first thought was that it would be the street department's province.

After all, the dead cat was in the gutter which is part of the street and the street sweeper lumbers down the gutter and street from time to time.

And we see crews from the public works department often repairing gutters and streets.

But now we know.

Call the cops, who convey the message to the proper authorities.

To the best of our knowledge, it was the first time that we have had the occasion to call on such a matter.

The cat turned out to be the pet of a woman who lived close by. It marked the first time that the cat had been out of the house for months. The owner was quite broken up about it.

Come to think of it, we really don't know how we have avoided such incidences in our life, i.e., disposing of a dead pet. Ours or someone else's.

Apparently we have had to work at it.

And we will continue to do so.

-0-

NOW THAT THE NEWLY-formed Youth Advisory Commission has called attention to the city fathers that the flag on display in the Council chambers has only 48 stars, there is going to be action.

Leave it to the kids.

We understand that the Rotary Club and the Campbell Municipal Employees Association have both indicated that they would like to donate a new flag with the proper number of stars.

The City Council will, of course, gladly and gratefully accept the offer.

Of course, only one flag is needed.

But the way the costs have skyrocketed for the new city hall, shucks, the councilmen aren't about to turn down any gifts, even duplicates.

Planning Commission gets "good deal" on gas station

For probably the first time in recent years, a service station application, on Monday night, won unanimous approval of the Planning Commission.

What actually "sold" the Commission, however, was that the approval of a modern station at Campbell and Winchester to replace the one now closed at that location, included the condition that a closed station at Winchester and Rincon would also be removed, plus a closed-down Big Beef drive-in.

As one commissioner commented, it was the best deal they had ever had as far as gas stations were concerned.

Approved by the Commission was the use permit application of Jortran, Inc. for a service station to be located on the southwest corner of Campbell Ave. and Winchester Blvd.

A service station has been operated on that corner since 1922, Fred Jones, Sr., owner of the property and a "pioneer" Campbell resident until moving to Santa Cruz, told the Commission.

However, the station has been closed for sometime and the present area does not meet city specifications for space requirements. However, Jortran, Inc. has acquired the "Big Beef" drive-in next door and with the added area plan to construct a modern station on the expanded space.

The station will be operated by Atlantic-Richfield and, in a letter to the Commission, Richfield specified that if the use permit was granted, the company would remove the present station now closed at Winchester and Rincon.

City Attorney Joe Bonacina ruled that specifying the demolition of that station could be a condition of the use permit, plus the removal of the storage tanks.

In other actions on Monday night, the Commission approved plans for a commercial building for "Big Brake, Inc." at 2120 Winchester Blvd. and granted a six-month extension for the use permit for the Tantau Athletic Center which is planning a swim club on Rincon Ave., near the city's Rincon Park.

The Commission granted a rearyard setback variance to Mrs. Rose A. Schroeder, at 128 E. Rincon, to allow an addition to an existing residence.

Approved also was the request of W. H. Asquith Co., Inc. for a zone change from R-1 to R-3-S on property at 51 Michael Dr. The firm was also granted a subdivision permit for the property.

The Commission denied without prejudice the application of California Shingle and Shake Co., at 25 Railway Ave. for a permit to build a building for storage of roofing materials on a lot across the street on Railway from the firm's present office.

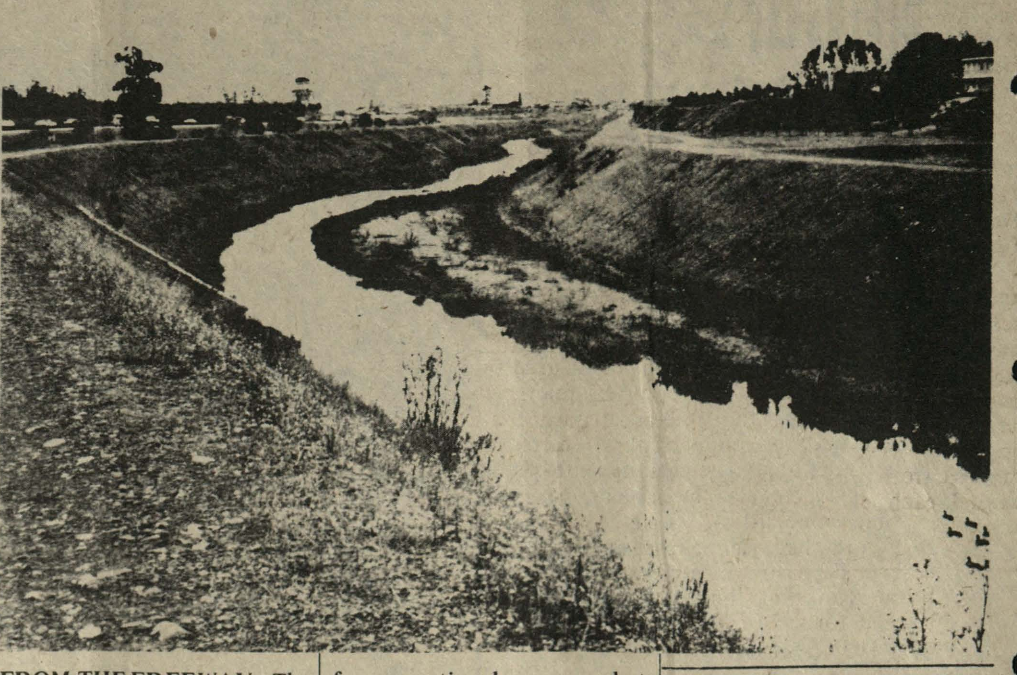
Involved in the denial was that the area now has an interim zoning on it (Railway to Gilman).

The zoning was established to allow time to study what type of development should be allowed in the area and to explore the possibility of any future redevelopment program for the section.

The interim zoning period expires on March 10, but the City Council can extend the period at that time.

The commissioners felt that no permanent building should be approved until some decision was made as to the permanent zoning.

The commissioners also suggested to Bud Bohl, the manager of the firm who was present, that he should appeal the ruling to the Council to expedite matters. They indicated also that a storage yard without a building would be more in keeping with the intent of the interim zoning.



FROM THE FREEWAY---The Los Gatos Creek area through Campbell does not present an attractive view in its present state to those traveling the freeway. However, civic groups maintain that not only can the creek area be utilized for recreational purposes but the entire area can be beautified. A meeting on the subject is called by the Los Gatos Creek Development Committee for next Tuesday, Feb. 10 at the city hall.

the old city hall.

It was also estimated, based on figures presented by the architect, Bill Hedley, that the cost of the structure would run between $28-$29 per square foot, allowing for a 6% profit for the contractor and a 7% contingency fund.

On the credit side, City Manager Bob Stephens estimated at the study session that the interest earnings of bond funds now on deposit would total $210,000 on March 1, 1971, a higher figure than first anticipated.

He also pointed out that a $32,400 cost for street acquisition could be transferred from the city hall development to gas tax funds.

BIRD LAW

The first laws in the world for the protection of birds were decreed during the reign of the Japanese Emperor Kanmu from 781 to 805.

Vocational guidance tour replaces CofC luncheon on Thursday, Feb. 11

A tour of the Vocational High School, the Campbell High School District's training school located at 760 Hillsdale Ave., will take the place of the regular Chamber of Commerce luncheon on Wednesday, Feb. 11, according to Bob Bullard, newly installed CofC president.

The vocational training facility offers 17 different training units including dry cleaning, nurse's aid, auto mechanics and the different phases of food handling. Students attend regular classes for one half a day at the other schools and then are bussed to the vocational school where they learn the basis of a trade.

The CofC members will eat in the cafeteria, where a $1 luncheon will be prepared and served by the trainees. Following the luncheon the members will have a choice of touring several of the training facilities with guides. According to Dean Chamberlin, CUHSD director of special services, "the center is looked upon as a model center and is known as the best one in the western states."

Reservations are required for the luncheon and may be made by calling the CofC office, 378-6252.

Bullard announced that the following chairmen would serve during the new year: Tom Snowden, ambassadors; Norman Paul, All American cities; Jeanette Watson, beautification; Mike Ivicevich, budget and finance; Holly Vollenweider, commercial development; Ingela Butters, community progress and special events; Ben Gould, congress for community progress.

Bob Peck, education; Tom State, governmental affairs; Lowell Grattan, industrial development; Joe Cuffaro, retail committee; Ed Fabbri, transportation; and Nick Roden, youth employment service.

Volunteers to serve on the various committees are now being sought.

BOB BULLARD---New CofC president will preside over the first luncheon meeting Wednesday, Feb. 11.

Young scientists to tour heart research unit

Top science students from 25 high schools in Santa Clara County have been invited by the Santa Clara County Heart Association to attend the Heart Research Day Lecture and Tour which is scheduled for this Friday, Feb. 6.

The tours will take place at two locations: Stanford Medical Center in Palo Alto and the Santa Clara County Medical Center in San Jose.

Invitations were sent to science teachers in all high schools of Santa Clara County asking that two students, ranking high scholastically and having an interest in the study of the heart and blood vessels to participate in the tour. One student from each school will attend each of the hospital tours.

Students will see the latest equipment used for heart surgery and for the diagnosis of heart disease. Staff members of the research facilities will discuss with the students the various types of medical research now in progress in their particular area of service.

4-H CLUB MEMBERS

Father's Night will be observed at the February meeting of the Campbell 4-H which will be held in the Coventry School cafetorium.

At the January meeting Charmaine Yamada, Mayfair All-Star member, served as judge for a contest in which the groups displayed articles they had made or collected. The items were judged on quality, texture or desirability.

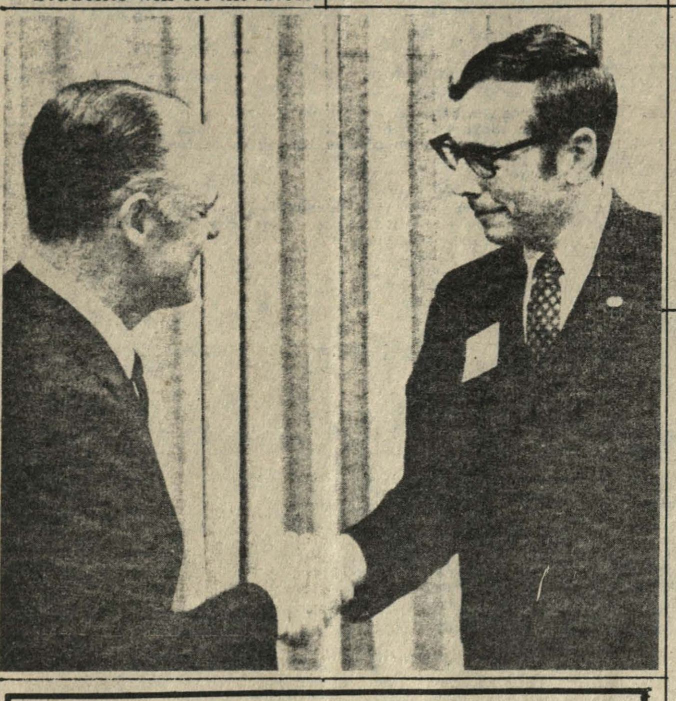
Possible participation in the community beautification project by the local 4-H club was explained by Nora Smith. Club members hope to be able to work with either the parks and recreation commission of Campbell or on the Santa Clara County parks project.

Other reports were given during the meeting by Kelly Show and Roxanne Smith on the Christmas party; Caroline Scrivano, Christmas turkeys; Lynn Smith, Sheep Field Day.

Games and refreshments concluded the meeting.

MOVING

Mr. and Mrs. Joseph Richard Phippen of Lenard Way have moved from the area to Poway, a little town near San Diego. Phippen was formerly employed by Lockheed in electronics.



ATTENDS SEMINAR--Robert J. Petrick, right, of 225 Union Ave., San Jose professional sales representative for Pfizer Laboratories Division of Chas. Pfizer & Co., Inc., is welcomed to a national seminar on Sinequan, a major new psychotherapeutic drug, by Pfizer president and board chairman John J. Powers, Jr.

ON CAPITOL HILL

with "Charlie" Gubser

Most pressure groups who want to increase federal spending suggest that "we take it out of defense". But a close study of the budget submitted to Congress last Monday reveals a glaring error in this attitude. Relatively speaking, the military has already been cut and there isn't much left which can be safely reduced.

The 1971 budget proposed this week is down $5.2 billion while all other federal outlays have increased by $8.6 billion. This fact alone is enough to belie the often-made statement that defense spending continues to rise while domestic programs are starved. But other facts also emphasize the continuing trend of downward defense expenditure.

Defense spending under the new budget will be 7% of the Gross National Product as compared with 13% a few years ago. Where military expenditures represented about 43% of the federal budget four years ago, it is now down to 34.6%, the lowest ratio since 1950.

The trend of defense spending is better understood when related to the last pre-Vietnam budget of 1964. That year the Pentagon requested $50.8 billion from Congress. The 1971 budget submitted by Secretary Laird when converted to 1964 dollars is $54.6 billion or $3.8 billion above the 1964 level. This, then, is the real increase since 1964.

The new budget includes the entire cost of the Vietnam war and a 130% increase in personnel costs as well as a $2 billion increase in the cost of military retirement. When one considers that the current annual cost of the war in Vietnam is about $23 billion and places that fact alongside increased personnel and retirement costs, it is obvious that the Defense Department must have made other cuts in excess of $20 billion in order to stay within a $3.8 billion real increase in the seven years since Fiscal Year 1964.

As further evidence of his real desire to cut military spending, Secretary Laird will drop 551,000 military personnel during his first two years in office and 130,000 civilian employees. In addition, reduced procurement of hardware will cause the loss of 640,000 defense jobs across the nation.

Personally, I applaud the dedicated efforts of Secretary Laird to reduce defense spending and make more money available for the solution of domestic problems. But in all frankness, I must warn those who look upon the defense budget as a bottomless source of dollars available for domestic spending that there should be a limit. In 1960 I pleaded with my constituency not to believe the politicians who alleged a non-existent missile gap.

The public didn't listen and in the next few years we saw a series of wasteful crash programs. Now the winds of public opinion are blowing strongly in the other direction and loud voices from the political arena cry for cuts in vital items like research and development.

The stage is being set for more wasteful crash programs in a few years to close the strategic gap which is now developing. Unless I miss my guess those same voices will be raised in a few short years, trying to fix the blame for allowing our defenses to degrade.

We should cut defense where we can, but we must not go overboard. Today our great need is for statesmen with the courage to walk against the strong winds of a political trend. And to walk against a wind requires that one keep both feet on the ground.

EDISON LIGHT

When Thomas A. Edison undertook the development of the electric light, a body of distinguished experts agreed that his efforts were "unworthy of the attention of practical or scientific men".

Prospect Pulse

by IVALEE INGRAHAM

In a close game played against Branham last Friday, Prospect came from behind in the fourth quarter to beat the Bruins 53-50. Senior team member Mickey Anderson made a basket in the last minute to give the Panthers the win. This week the Panthers play Leigh in the Prospect gym at 7 p.m. The following Tuesday another home game is scheduled, this time with Blackford.

Foreign exchange student Hans Mandoki was named Soccer Player-of-the-Week last week. Hans made the only goal for Prospect as they won 1-0 in their game last week. Eric Test, a senior, was named Player-of-the-Week for basketball. Eric received the award because he has improved so much since the season started.

Prospect's Music Department played their first annual Pops Concert to full houses Thursday and Friday nights. The Pops Concert is the fund-making event for the music department this year. Backing the concert, and helping serve pie and cake, was the newly formed Parent's Booster Club.

President is William Davy, and he explains the club's purpose is to show support for the music department, and help out with concerts and trips the department is planning. All music parents are invited to join.

Campbell Corners

By Cindy Harris

A new semester has started and along with it has come the election of student body officers and class officers. Last week's assembly introduced the new councilmen Pete Wildermann, Steve Brown, Mike Brown and Craig Fischer. Bob Hamilton was named student manager and his assistant this semester is Doug Campbell.

The secretary of the Council will be Tom Carey, the vice-president for this term is Bill McCall, and last but holding the highest office of president is Dave Akina.

Everyone is waiting to see the progress of the new council and the support of the students is greatly needed. In his statement on leaving the office of president, Jim Royer said that there were three different points that would help make a better council and they were things the council needed.

These points were: 1) The council needs the support of the students. Jim said he has given up on that point, 2) there must be a better system of communication between students and the administration, and, 3) the council needs the support of the parents to back them or at least show interest in the things they are trying to accomplish.

To get any changes in school you must have parental support. The administration will listen to parents. Mature actions on the part of the parents is a very big helping hand to have on our side in helping us to get any changes wanted. Jim suggested literature should be sent to parents by the students on different matters, as the administration does.

Watch For The Progress Edition FEBRUARY 25th

LEGAL NOTICE

NOTICE OF HEARING

Notice is hereby given that the Planning Commission of the City of Campbell has set the hour of 8:00 p.m. on Monday, the 16th day of February, 1970, in the Council Chambers of the City Hall, 75 North Central Avenue, Campbell, as the time and place for public hearing on the application of Ira Kirkorian for a Use Permit to allow a 1-stall car wash operation to be located inside the easterly portion of Building "C" of the automotive center located at 125 South San Tomas Aquino Road - Building "C" being the most northerly building in said complex, and modification of the approved service station use permit on said site.

Map and property description on file in the office of the Planning Department, 75 North Central Avenue, Campbell, California.

Interested persons may appear and be heard at said hearing.

CITY OF CAMPBELL PLANNING COMMISSION
ARTHUR KEE, SECRETARY
Publish: February 4, 1970

LEGAL NOTICE

ORDINANCE NO. 719

BEING AN ORDINANCE OF THE CITY OF CAMPBELL ESTABLISHING AN INTERIM ZONING DISTRICT FOR THAT PORTION OF THE CITY HEREIN DESCRIBED IN EXHIBITS "A" AND "A-1" ATTACHED HERETO AND MADE A PART HEREOF, AND PROVIDING INTERIM REGULATIONS FOR THE USE OF LAND, CONSTRUCTION, REMODELING AND ALTERATION OF BUILDINGS THEREIN.

WHEREAS, the City of Campbell is proposing a Civic Center Zoning District so as to provide the City with a zoning classification which will guide development and provide for uses that are compatible with the new Civic Center.

WHEREAS, Section 9333.6 of the Campbell Municipal Code provides for the adoption of an Interim Ordinance prohibiting any uses which may be in conflict with a contemplated zoning proposal.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CAMPBELL DOES ORDAIN AS FOLLOWS:

Section 1. That the area described and shown in Exhibit "A" and "A-1" attached hereto and made a part hereof, is hereby established as an Interim Zoning District.

Section 2. That the following temporary interim zoning regulations with respect to the uses of these properties shall be as follows:

(a) No use of any land, building or other structure shall hereafter be established or conducted, and no present use of land, building or other structure shall hereafter be extended or enlarged and no building or structure shall hereafter be erected, constructed, moved, converted, remodeled or altered unless and until a permit therefore shall first have been obtained from the City Council of the City of Campbell pursuant to the procedures specified in Section 9328, Chapter 3, Article IX of the Campbell Municipal Code.

(b) Application for such permit shall be filed with the Planning Department of the City of Campbell on forms provided by said department 21 days prior to the regular meeting date at which time a public hearing will be held.

(c) The Planning Commission shall consider all applications for use permit for the use of land, erection of buildings or structures or alteration or enlargement of existing structures, or any other use or activity within the area described in Exhibit "A", and determine whether or not such proposed use complies with the proposed development of the area.

(d) The Planning Commission shall report its findings and recommendations to the City Council at which time the City Council shall set public hearing on said use permit as specified in Section 9328, Chapter 3, Article IX of the Campbell Municipal Code.

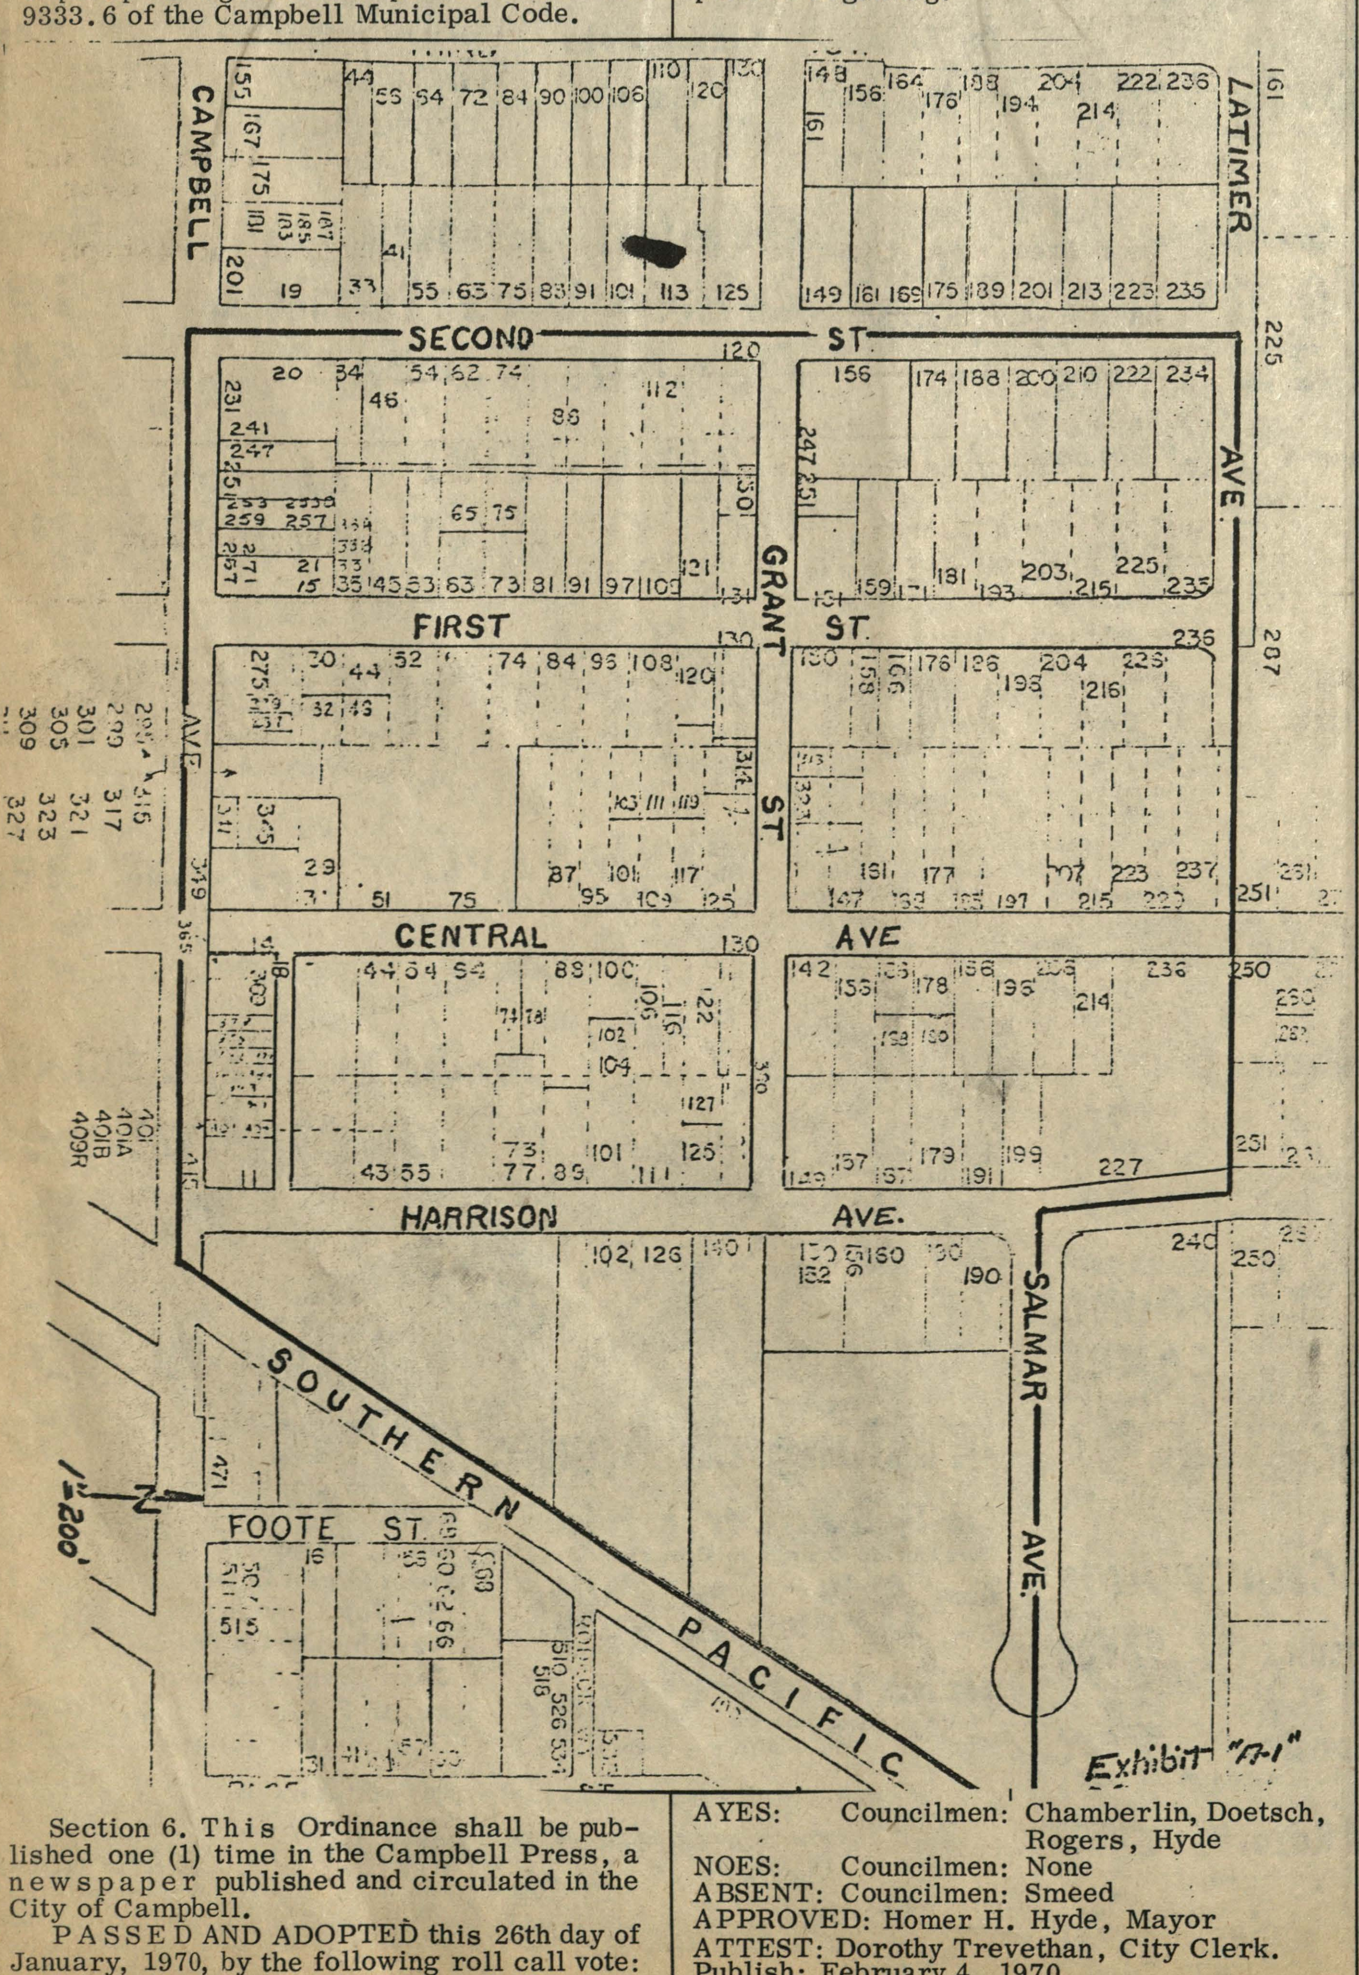
Section 3. That this ordinance shall be effective for a period of ninety (90) days from the date of adoption and may be extended for a period of one (1) year from expiration date of the ninety (90) day period after enactment of proper legislation as provided in Section 9333.6 of the Campbell Municipal Code.

Section 4. That this ordinance is hereby declared to be an Urgency Ordinance and shall be in full force and effect immediately upon its adoption. The facts constituting such urgency are as follows: The City Council finds and determines that unless land uses are controlled by means of this Ordinance that applications for uses will be made inconsistent with such studies and findings as may be required by the City Council in considering land uses for the area and that this Ordinance is necessary to preserve the health, safety, peace and welfare of the citizens of the City of Campbell.

Section 5. If any section, subsection, sentence, clause or phrase of this Ordinance is, for any reason, held by a court of competent jurisdiction, to be unconstitutional, such decision shall not affect the validity of the remaining portions of this Ordinance.

"EXHIBIT A"
INTERIM ZONING DISTRICT
ORDINANCE #719

All that property bounded as follows: Beginning at the intersection of the centerlines of East Campbell Avenue and North Second Street; thence running northerly along said North Second Street centerline to the centerline of East Latimer Avenue; thence along said centerline of Latimer Avenue and the easterly prolongation thereof to the centerline of North Harrison Avenue; thence southerly along said centerline of Harrison to the centerline of Salmar Avenue; thence easterly along said centerline of Salmar Avenue and the easterly prolongation thereof to the westerly property line of the Southern Pacific Railroad right-of-way; thence southerly along said westerly right-of-way line to the centerline of East Campbell Avenue; thence westerly along said centerline of East Campbell Avenue to the point of beginning.



Section 6. This Ordinance shall be published one (1) time in the Campbell Press, a newspaper published and circulated in the City of Campbell.

PASSED AND ADOPTED this 26th day of January, 1970, by the following roll call vote:

AYES: Councilmen: Chamberlin, Doetsch, Rogers, Hyde
NOES: Councilmen: None
ABSENT: Councilmen: Smeed
APPROVED: Homer H. Hyde, Mayor
ATTEST: Dorothy Trevethan, City Clerk.
Publish: February 4, 1970

Petaluma adobe house recalls state's colorful heritage

Three miles east of Petaluma stands an imposing two-story structure—a large adobe ranchhouse that is a vivid reminder of California's colorful historic heritage. It is the Petaluma Adobe and it once served as the command post for the 66,000-acre rancho of General Mariano Vallejo.

Started in 1834 by Vallejo, who was ordered to settle the area, it is one of the largest adobe structures in California, says the California State Automobile Association. Only half of the main building remains, but it is still big, two stories high, with a balcony that runs all the way around, and an inner courtyard.

The Adobe is out in the country, making it easy for a visitor to visualize how the rancho appeared in Vallejo's day–hills dotted with oak trees on the east, a smooth valley sloping to the mountains on the west, where Indian workers and vaqueros once herded thousands of cattle, sheep and horses.

Hundreds of acres were devoted to raising wheat and vegetables and fruit. Immense quantities of hides and tallow were produced at the rancho for trade with ships from New England annually visiting the Pacific Coast.

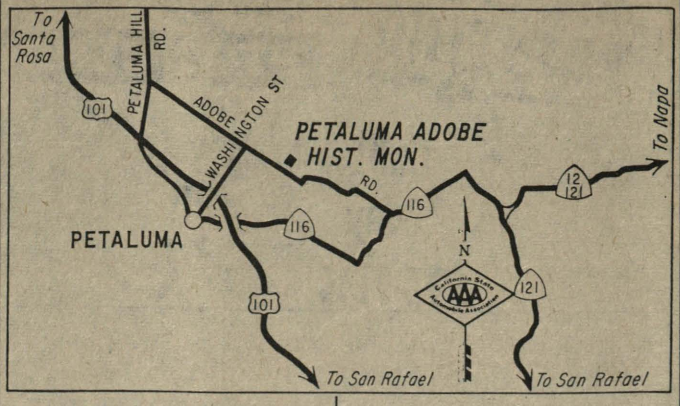
Necessities of the rancho were turned out here in shops located in the Adobe. These included the tannery, smithy, looms, grist mill where such articles as candles, soap, blankets, shoes and saddles were manufactured by the natives. Visitors to the Adobe can still get a glimpse of what life was like in that time as they visit each of the shops.

Upstairs are the living quarters of General Valejo and his family and the rancho foreman and quarters for guests. The state has furnished the rooms with replicas of the Mexican rancho period of the 1840's and 50's.

The main building, still under restoration by the state, enables visitors to get a close look at the old mud-straw adobe construction – walls three feet thick and recessed windows with iron bars to protect against Indian attack.

A ranger is on hand to point out various interesting features, such as the room where Vallejo entertained his guests, or the Indian campground across Adobe Creek, where archaeologists are continuing their examination of recently discovered fire pits and graves.

Behind the Adobe is a large fenced-in area where a burro, goat and chickens greet visitors and cowhides hang from a rack on the east side of the rancho building, while in the inner courtyard is the smithy's forge with the huge billows and an ox cart.



PHARMACY PHACTS

By
Allan
Blaine

An old fashioned proverb - - if you want to marry, never look under the bed.

* * *

Speaking of beds, there is a belief in parts of the south that if a person talks in his sleep, you can put his hand in a bowl of water and he will tell you his secrets.

* * *

Warts are contagious. They can be transmitted from one person to another. Scratching or shaving over an area where there is a wart may cause them to spread.

* * *

In the last ten years, scientists have found out more about arthritis than in the preceding ten centuries.

* * *

According to an old Pennsylvania Dutch belief, a woman will lose her husband if she transplants parsley!

A Parent's
Voice For
Board
of
Trustees

CAMPBELL UNOIN SCHOOL DISTRICT
FEB. 17th

As a Trustee I Will endeavor to:

1. Be a full-time Trustee.
2. Bring a parent's and taxpayer's voice to the Board.
3. Call for a complete Board review of the resolution which institutes Family Life Education in our schools in fall, 1970.
4. Protect the majority's rights as well as the individual's and minority's rights.
5. Demand stronger school administrative action on drug usage and child safety.
6. Curb spiraling educational costs by measuring educational value received for dollar spent.
7. Inform parents more fully on controversial experimental programs.
8. Retain local control over our schools.

WVC presents Friday concert

Miss Jeanne Garson will be featured soloist Feb. 6 when West Valley College presents the Santa Clara Philharmonic at Buchser High School

The performance calls for the young soprano to sing "Seven Early Songs" by Berg in the first half of the show, and "Pace, Pace Mio Dio" from "La Forga Del Destino" by Verdi, after intermission.

Miss Garson is currently assistant professor of music at San Jose State College, after studying and giving concerts in Europe for some years.

She received her bachelor of music, master of music and performer's certificate from Eastman School of Music in Rochester, N. Y. She has sung extensively throughout Munich and Vienna, in recitals and with orchestras there. She has been soloist with the Rochester Philharmonic and the Eastman Rochester Symphony.

In addition to MIss Garson's appearance, the philharmonic under the direction of Dr. Gibson Walters, will also present the "Barber of Seville Overture" by Rossini and Beethoven's Symphony No. 7".

Admission to the 8:30 p.m. performance is free. Buchser High School is located at 3000 Benton St., Santa Clara.

Parks and Recreation Survey

This survey is being conducted to give each interested citizen of the Campbell area a chance to express his desires as to the recreational activities which he feels should be included in the Rincon Park Development plans. The Parks and Recreation Commission is anxious to make this park site one of maximum usage by the greatest number of Campbell residents possible. With this thought in mind, the Campbell Parks and Recreation Commission requests your cooperation in filling out the survey form. Your answers will serve as a guide to the Commission for recommendations to the architect in order to develop the best possible Park for YOUR community.

When answering the questions, please keep in mind that some neighborhood recreational activity will be developed on excess lands held by the Campbell Elementary Schools as authorized by you in the recent park bond election.

1. What age groups of children do you feel needs park and recreation facilities most?

1-6________ 7-12________ 13-18________

2. What age groups of adults do you feel needs park and recreation facilities most?

19-30________ 31-45________ 46-65________ 65 and Over______

3. Which of the following activities would your family like to see developed at Rincon Park?

Picnic and Barbecue________________
Swimming________________
Wading Pool________________
Children's Zoo________________
Senior Citizens Area________________
Kiddies Playground________________
Outdoor Dancing________________
Handball Court________________
Horseshoe Lanes________________
Lighted Softball Field________________
Flower Garden and Quiet Area________________

Wide-eyed in Washington

By Mason Sacks

It's All Part of the Game

The politician has yet to be born who has not had to face a steady barrage of criticism from the very first day he enters office. This criticism can and does come in many forms, and it comes from many different sources. Displeased constituents will express their displeasure quite vehemently in letters to their Washington leader.

Influential businessmen will wire a Congressman "in reference to the distressing conduct," legislation-wise, that has been associated with his office. Even fellow legislators will not hesitate to tell the Congressman of the many areas in which he is not quite "up to par."

Depending on the thickness of the skin of the Congressman involved, the above forms of criticism may or may not have a damaging effect. There is one source of criticism, however, that will evoke some sort of reaction from even the most pachydermatous of politicians. For when this source attacks, the criticism does not reach the ear of just the Congressman; the entire public is made aware of the Congressman's alleged shortcomings. The source I am referring to, of

How does a Congressman react when he is the victim of an assault by a newspaper?

"Frankly, I don't like it at all," said a Congressman from the Midwest. "If the newspaper has a legitimate gripe, that's one thing. But when they come off half-cocked and blame you for something you actually didn't do, or get their facts wrong in any of a million other ways, it's hard to sit there and take it with a smile. If reporters would be willing to take the time to check their stories out before they submit them, there wouldn't be this problem."

Another Congressman, this one from Oregon, took a more charitable view of the situation. "When I entered public service, I knew I would have votes there is no 'safe' ground. No matter which way you vote or which side of an issue you choose to defend, there are some who are antagonized.

These people have a right to express their views and indeed, the ultimate right, which is to work to replace the official they are unhappy with or with whom they disagree. I knew before accepting my job that public criticism was part of the 'reward'."

"What I would hope," continued the Oregon Congressman, "is that the press and people in general will examine the facts and present a fair case. No one likes to be accused of things which he is not guilty of committing, nor does anyone want to be attacked for no particular reason. With responsible press people, this does not happen."

A Congressman from Colorado I spoke with seconded the remarks of his colleague from Oregon. "One of the main purposes of a newspaper is to serve as a watchdog for the people," he commented. "Obviously this means that a do a lot of criticizing.

If a newspaper editorial is based on fact and it is not favorable to me, there really isn't any reason for me to complain. What good would it do me?

LSD

LSD (ACID) is a synthetic chemical compound: d-lysergic acid diethylamide.

It is one of the most popular drugs in the underground drug cult today.

Its direct effect is rarely fatal and apparently not physically addictive. But, its effect on the mind is unpredictable.

LSD *is* an hallucinogen...It can be a psychedelic that takes the mind on a "magical mystical" trip. Or, it can create a mental disaster, resulting in panic, psychosis or depression that can remain or flashback long after the drug's initial effect.

Its effect on animal and human chromosomes and genes is still unknown.

No one can be sure how any given amount will effect any one person at any one time, even in the most apparently stable subject.

Why was LSD developed and how is it obtained?

LSD has been a research drug used in the study of psychoses and the chemical function of the brain. The Food and Drug Administration has declared use for any purpose other than research illegal. Yet, an illicit product, often found to be questionably synthesized and mixed with other compounds or drugs, is widely available.

How is LSD taken?

When diluted, LSD may be used in an ampule or hypodermic. But the white powder or clear liquid in pure form is far more potent. Dangerous, pinhead-sized amounts of the tasteless, odorless drug are easily concealed in sugar cubes, chewing gum and even on the backs of envelopes and postage stamps.

What can happen when you "drop" LSD?

One may "hear" colors or "see" sounds. A feeling of "total wisdom" and "new insight" may wash over the user, altering time and space perception. The user may feel relaxed, self assured and powerful, or become anxious and apprehensive.

Short-term effects can include sleeplessness, an increase in blood pressure, heart rate and blood sugar, nausea, chills, irregular breathing, sweating, trembling hands and dilated pupils.

Long-term effects include loss of interest in society, the user leaving family and friends, living only for the next "trip".

What causes drug abuse?

Curiosity, desire to experiment, rejection of "the establishment" and a search for a pleasurable release from physical and mental pressures and depression all can lead to drug abuse. In what has become a "pill-taking" adult society, youth are particularly vulnerable.

LSD. It can be a psychedelic that takes the mind on a "magical mystical" trip. Or, ...

It can create a mental disaster resulting in panic, psychosis, or depression that can remain or flashback long after the drug's initial effect.

Think about it.

Drug abuse is a problem. Get the facts. Once you have the facts, see that those who need them get them. For more information, contact:

LEGAL NOTICE

Notice is hereby given that the Planning Commission of the City of Campbell has set the hour of 8:00 p.m. on Monday, the 16th day of February, 1970, in the Council Chambers of the City Hall, 75 North Central Avenue, Campbell, California, as the time and place for public hearing on the application of Charles L. Carothers for variance from 8,000 square feet to approximately 7,800 square feet to allow the construction of a four-unit apartment on property located at 166 Michael Drive.

Map and property description on file in the office of the Planning Director, 75 North Central Avenue, Campbell, California.

Interested persons may appear and be heard at said hearing.

City of Campbell Planning Commission
Arthur Kee, Secretary
Publish: February 4, 1970

AND THE HORNS WILL TOOTLE---Debbie Sayre and Cindy Mankamyer will be playing away on their horns Friday and Saturday nights at the annual Campbell High School PTA "Pops" Concert being presented at the Campbell High School cafetorium. Refreshments will be available and a family evening of enjoyment is promised for all. Doors open at 7:30 p.m.

Guild holds Feb. 14 dinner meet

A dinner party meeting is being planned by the Campbell Artists Guild members. The main dish of chicken will be supplemented by salads and other side dishes and desserts brought by the members.

The Valentine theme party will be held Saturday, Feb. 14 at the home of Mr. and Mrs. Floyd Greenleaf, 1035 West Parr Ave.

A brief business meeting will be held following the dinner hour which will start at 5:30 p.m.

Conducted during the evening will be a picture exchange with those bringing a picture being able to take someone else's picture home.

Members of the Guild are also planning a membership-juried show to be held Feb. 13 in connection with the grand opening of the PruneYard Towers. Pictures must be dry, framed or matted, wired and ready to hang, not to exceed 24 x 36 inches.

Categories will include oil or acrylics, watercolors, mixed media, portrait figures, landscapes, still life, seascapes and floral, as well as three dimensional objects.

Barbary Coast theme of party

The Women in Construction, or "Wics" are planning a "Barbary Coast Bust" this Friday, Feb. 7. Taking their theme from the rough and ready early settlement days, the women who serve as secretaries and other office employees to all of the construction firms in the area, will be holding their dinner dance at the "Bucket of Blood Saloon", otherwise known as the Mary Anne Gardens, 901 Lincoln Ave.

Dancing will be to the music of "The Satins", and costumes are requested. Several Campbell women are employed in the construction field and have indicated they are planning on attending. Further information is available by calling 287-5880.

Mrs. Watson speaks to club

Mrs. Jeanette Watson, Campbell city beautification chairman, will be the guest speaker at the Wednesday, Feb. 11 meeting of the Campbell Garden Club. Mrs. Watson is well known for her work in promoting parks in the Campbell area and her talk will be very interesting and informative.

The meeting will be held in the Fireside Room of the Congregational Church of Campbell, 400 W. Campbell Ave., starting at 10 a.m.

Civic beautification will be the meeting theme under the direction of Mr. J. Hartman. During the regular business meeting, officers will be elected. Guests are welcome to attend.

SEWING CLASS

An unusual opportunity to update sewing skills is available each Thursday afternoon in Bennett Hall at the Congregational Church of Campbell, 400 W. Campbell Ave.

Mrs. Achsah Davy is teaching a course entitled "Clothing 3B" which is designed to "catch-up" experienced seamstresses on the many techniques of sewing that have been developed recently.

Sponsor is Metropolitan Adult Education Program. For information, call 379-8550.

MARTIN BROONES

Broones plans Feb. 14 lecture

"Is There a Way Out" is the provocative title of the lecture scheduled for Saturday, Feb. 14, at 10:30 a.m. by Martin Broones, C.S.B. of Beverly Hills.

Broones, who is speaking under the auspices of the First Church of Christ, Scientist, Campbell, suggests that young people may be the very ones who are directing us to the way out of society's troubles because of their rejection of materialistic values and search for a more spiritual way of life.

Broones was a successful musician, composer and director of musical productions and films before becoming a Christian Science practitioner in 1948 and a teacher of Christian Science in 1958. He is presently on lecture tour throughout the United States and Canada.

The lectures will be given in the Plaza II Theater, 2501 S. Winchester Ave. Infant care will be provided at the church, 395 W. Rincon.

Zion Lutheran Church observes 10th anniversary

The tenth anniversary of the Zion Lutheran Church of San Jose, 3257 Payne Ave., will be observed Sunday, Feb. 8. Two special services are planned for the morning at 8:30 and 10:30 a.m. and a banquet in the evening at which time Oliver Ruud, the church's first pastor, will be the guest speaker.

On Organization Sunday, Feb. 7, 1960, 103 people were present for the service. Membership in the new Evangelical Lutheran Church stood at 124 charter members, including 71 children and young people. Zion membership now numbers 450.

During the first few weeks William Iverson was elected president of the first church council; a Sunday School was started, the Luther League was formed; and the Women's Missionary Society organized and elected Mrs. Max Patterson as president.

Only 13 families remain in the charter group who still attend the church.

Guest speaker for the morning anniversary services will be Silas Torvend, Golden Gate conference chairman and pastor of Bethany Lutheran Church in Cupertino.

Pastor Roland Wiederanders has served as pastor of the Zion Lutheran Church since November, 1963.

Grange sets date for annual luncheon

Feb. 23 has been set for the annual Early Settlers Day luncheon and entertainment at the Orchard City Grange. Invitations will be in the mail shortly for the annual event which has honored the old settlers of Campbell for many years, and which is eagerly looked forward to by many former residents of Campbell.

An interesting and informative speaker, John Butterfield, Campbell fire department inspector, spoke at the Jan. 27 meeting of the Grange. Presiding was Fred Johnson.

The next regular meeting will be held on Feb. 24, at which time a large class of initiates will be received into membership.

DAKOTA CLUB

The monthly meeting of the Dakota Club will be a potluck and fun meeting on Monday, Feb. 9 at the Stone Church, corner Lincoln and Clark Way. Bring a hot dish or salad and your own place setting and silver. All former Dakotans and friends are welcome. Further information may be obtained by calling 297-9196.

ATTEND CLINIC

Five teachers from the Campbell area will attend the Political Action Clinic for Teachers in Millbrae, Feb. 6-8.

Attending will be Sharon Blanar, fifth grade teacher, Moorpark School; Betty Hayes, reading specialist, Hamilton School; Richard Leyva, San Tomas School principal; Robert Persky, Campbell Elementary Teacher Association president and Herb Wadley, president-elect of the CETA.

Betrothal announced

GLORIA PIGUE

A champagne dinner party was held by Mr. and Mrs. William G. Pigue of Campbell announcing the engagement of their daughter, Gloria Dawn, to Thomas Carl Pardoe.

Gloria is a 1969 graduate of Campbell High School and is presently employed by Barclay's Bank of San Jose.

Tom is the son of Mr. and Mrs. Thomas E. Pardoe of Campbell and was graduated from Campbell High School in 1966. He is now attending San Jose State College and will receive his B. A. in physical education in June. He is also presently employed by the Campbell Union High School District.

Nov. 15 has been set as the wedding date.

Panel will focus on values

Three senior girls from Westmont High School, Carol Wilson, Denise Fredericks and Lynette Pietrobono will be members of a student-educator panel discussion Thursday, Feb. 5, at the Gamma Omega Chapter of Delta Kappa Gamma meeting.

The discussion titled "It's a Two-Way Street" will focus on present-day values of students and educators as basis for action in the schools.

Educator panel members will be Miss Paula Tamura, math teacher at Westmont High School; Mrs. Elaine Hendricks, district librarian for Campbell Union District and Mrs. Helen Mathiesen, math teacher, Covington School, Los Altos.

The meeting will be held at the home of Miss Atha Jane Haywood, 1840 Overlook Rd., Los Gatos. The society is an international honor society for women educators.

Westmont plans faculty play

"Send Me No Flowers" is the title of the Westmont Faculty play which faculty members will present Feb. 5 and 7 at 8 p.m. in the cafetorium and a Friday, Feb. 6 matinee at 3 p.m.

Admission will be $1 for regular seats and $1.50 for reserved seats, with all proceeds going toward the PTA scholarship fund. The faculty play is an annual event.

Cast members include a mystery celebrity whose name will not be divulged until curtain time.

Honor orchestra presents first concert Feb. 10

Campbell District Honor Orchestra is performing their first concert of the year at the Campbell Elementary School on Tuesday evening, Feb. 10 at 7:30 p.m.

The Honor Orchestra draws from all the 7th and 8th grade schools in the Campbell District and is directed by Ed Tonini, instrumental music instructor at Campbell Elementary.

The young people practice every Tuesday afternoon following their regular class day.

The program will consist of "Larghetto" by Handel, "Sonata in F" by Teleman, "Ase's Death" from the Peter Gynt Suite by Grieg, "Beethoven's First Symphony", "Concerto for Violin" by Seitz, "Rienzi Overture" by Wagner, and "Slavonic Dance" by Dvorak.

Soloist will be Dorothy Marchesi, violin, accompanied by Elaine Marchesi.

An added feature will be "Great Themes from Great Italian Movies."

Villa Montalvo features local student work

Armando Delgado, Blackford high senior, will be exhibiting at Villa Montalvo from Feb. 4 through March 1. The gallery is open to the public at no charge from 1 to 4 p.m. daily except Monday.

He has exhibited in numerous juried shows in Santa Clara and San Jose and has received several prizes in oil and pastel painting, as well as sculpture.

A former student of Robert Gerbract, an art teacher in the Campbell Union High School District, Delgado recently completed work on a 10x16 foot mural in acrylic for the Santa Clara Humane Society Art Show. He has won over 30 trophies, and works in a semi-realistic field.

Delgado has sold over 75 oils and would like to travel to Africa or South America and visit great galleries in Madrid or Paris.

READY TO SWING---Mrs. Lenore Flood, chairman of a committee of employees of Doctors General Hospital which donated sports equipment to Campbell's Eastfield, Home of Benevolence, prepares to take a swing with a baseball bat as the pitcher in the foreground warms up. Catcher is David Barnes, recreation counselor at Eastfield. Doctors General Hospital employees decided to forego exchange of gifts and instead donated the money to Eastfield's sports equipment fund.

IN PLAY

George Akina, 19, a freshman from Campbell, is one of the 20 cast members in the University of the Pacific production of "The Threepenny Opera."

The show is scheduled to open in Stockton with performances Feb. 14-15 and Feb. 19-22.

ON "ENTERPRISE"

Navy Airman Fred J. Schrafiotti, husband of the former Miss Sandra L. Jurewicz of 454 Sunny Oaks, Campbell, and Navy Petty Officer Third Class Donald B. Mandell, son of Mr. Albert M. Mandell of 571 McGlincey Lane, Campbell, are serving aboard the U.S.S. Enterprise.

SMOKING CLASS

A smoking withdrawal clinic sponsored by Metropolitan Adult Education Program will be offered beginning Feb. 20 at Willow Glen Center, 1425 Lincoln Ave., at 7 p.m.

Instructor is Douglas Henderson, author of "How To Stop Smoking Painlessly."

For information, call 293-5400.

PTA NEWS

PROSPECT HIGH

Residents are invited to attend the Prospect High School PTA meeting on Feb. 10, 8 p.m. in the Prospect High School Cafetorium.

Dr. Nicholas R. Montesano, Campbell Union High School District Superintendent, will speak on the tax election to be held Feb. 17.

In addition, there will be a brief Founders Day ceremony and a skit will be given from the all-school play "Thieves Carnival". Excerpts from the pops concert, featuring the concert band, orchestra and choral groups will be presented.

Nomination of the committee for election of PTA officers for the coming year will be held and refreshments will be served.

CANDIDATE---Henry C. Batis, 50, of 1629 Calado, Campbell, has announced that he again will oppose incumbent Supervisor Ralph Mehrkens of the fourth district. Batis was a candidate in 1966. He was also a candidate for the Campbell City Council in 1968.

Batis is employed by Bidou Bakery. A native of Minnesota, he is a long-time resident of the area and has been active in homeowner groups, retarded children committees and in various fund-raising activities. He is a member of the Elks.

In his announcement, Batis charged Mehrkens with failure to respond to the critical problems that face the average citizen today.

BOOK FAIR

The Clairbourne Peninsula School, grades one through eighth, will hold a Book Fair Feb. 2 through 5 at Jolly Man Hall, 20900 Steven's Creek Blvd. behind the Cupertino Union Church. Several Campbell children are attending the school.

Button up your overcoat; this church is cold

Worshippers attending the Congregational Church of Campbell, 400 W. Campbell Ave., recently have had to be sure and wear their overcoats and also be prepared to walk gingerly.

It seems that the heating pipes, located in the foundation of the sanctuary, have "sprung a leak" and this, in turn, resulted in a large patch of wet rug, right in the center aisle, and what is worse, a hole in the floor, and no heat.

Repairs are under way and hopefully no new "leaks" will develop, but just in case, wear your warmest clothing to church and be "warmed" by Rev. Anthony Wayne Myers' sermons!

Police to sell unclaimed items at Sat. auction

Seventy items will be auctioned off Saturday, Feb. 14 at the semi-annual auction conducted by the Campbell Police Department. All of the items being offered for sale are unclaimed goods found by the police or recovered from burglaries and not claimed.

The 10 a.m. bidding will be held in the parking lot behind the Campbell City Hall, 75 N. Central Ave., with Captain Don Burr serving as auctioneer.

Up for bids will be 33 bicycles, a set of Chevrolet hub caps, a 5½ gallon plastic container; three batteries; a bumper jack; six rubber doormats; two bowling balls, a bow and arrow set; motorcycle helmet; three cameras, six speakers, a Benrus calendar watch; four brand new tires with the white paper still wrapped around them and a box of other miscellaneous jewelry items.

IOOF OFFICIAL VISIT

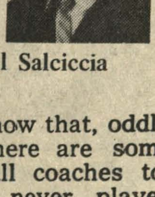
True Fellowship Lodge of Odd Fellows of Santa Clara will confer the first degree for the Grand Master Arthur Tomlison official visit Feb. 19 at 8 p.m., Cupertino Lodge Hall, Cupertino.

All Odd Fellows are invited to attend.

SPORTS FANS!

I BET YOU DIDN'T KNOW

By Al Salciccia



Did you know that, oddly enough, there are some pro football coaches today who never played pro football themselves . . . This includes one of pro football's most successful coaches, Vince Lombardi.

* * *

A former President of the U.S. was once a football coach at a major college . . . Can you guess which President it was? . . . Answer is Woodrow Wilson . . . He helped coach football at Princeton in the late 1880's.

* * *

So many Californians have discovered the extras in Enco Extra gasoline that Humble has dedicated the world's most modern refinery at nearby Benicia, on Friday, October 3, 1969.

California's newest refinery is the climax of more than 2 years construction and decades of research at a cost of $160 million dollars. It has a capacity of 3,000,000 gallons per day. And now, direct to you from this ultramodern installation will come the Enco Extra gasoline needed to serve a growing California.

Fill up with Enco Extra and feel the tiger come alive!

BANK OF AMERICA RAISES THE RATES FOR SAVERS

Personal Choice savings plans now offer more for your money. One: you have many plans to choose from. And two: we've raised the interest rates.

Of course, we could mention a third: your savings enjoy the protection of the world's largest bank. So let your money go to work at Bank of America. The pay is good.

4½% Regular Savings
Starting February 1st, your interest will be increased to 4½% computed daily and compounded quarterly. Deposits made by the tenth of each quarter earn interest from the first. Your funds are immediately available. You can put money in. Take it out. Any time, any amount.

5% Investors Passbook
This is the passbook account that pays you more for leaving your money with us for at least 90 days. The 5% interest is compounded quarterly. You can withdraw interest during the first 10 days of any calendar quarter.

You can also withdraw principal at that time, providing it's been on deposit a full calendar quarter. A 90-day written notice will also release funds. $500 opens an account. Additional deposits are made in $100 amounts or more.

5¾% Certificates of Deposit
We've lowered the entrance requirements and raised the rate from 5% on maturities of one year or longer. These Certificates are issued for $500 or more. Two year Certificates now earn 5¾%.

Let us safeguard your money for one year, and we'll pay you 5½% quarterly. These new rates are effective immediately.

7½% Certificates of Deposit
Large deposits—$100,000 or more—now earn 7½% if left with us a year. The interest rates on these Certificates range from 6¼% to 7½% depending on their maturity. These represent an increase of ¾% to 1¼% over previous rates.

Whatever Personal Choice Savings plan you choose, Bank of America has your best interest in mind.

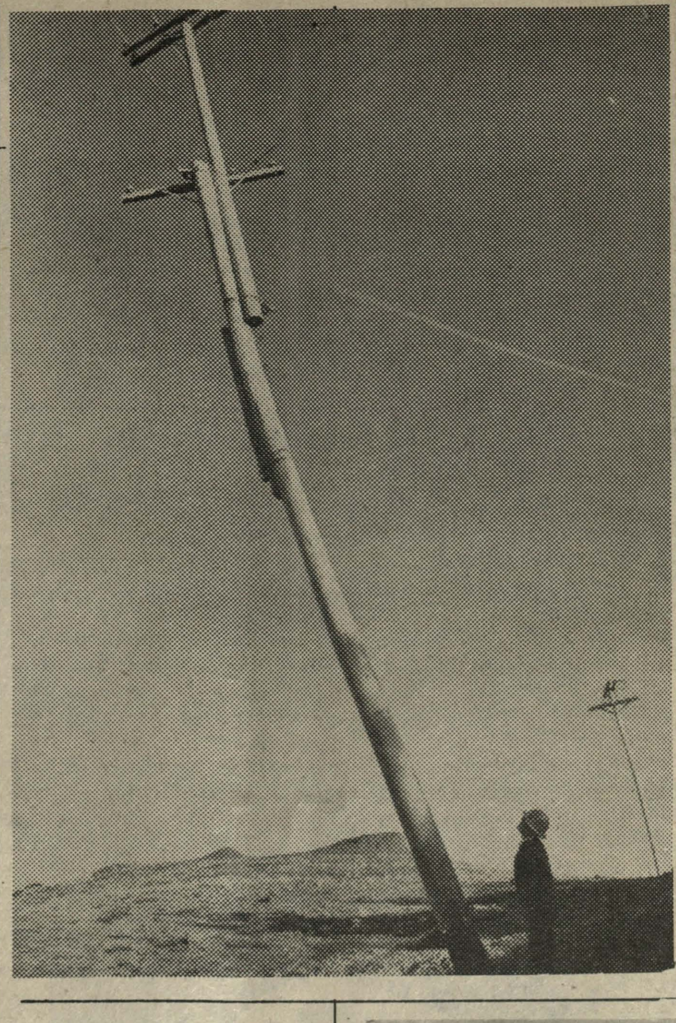
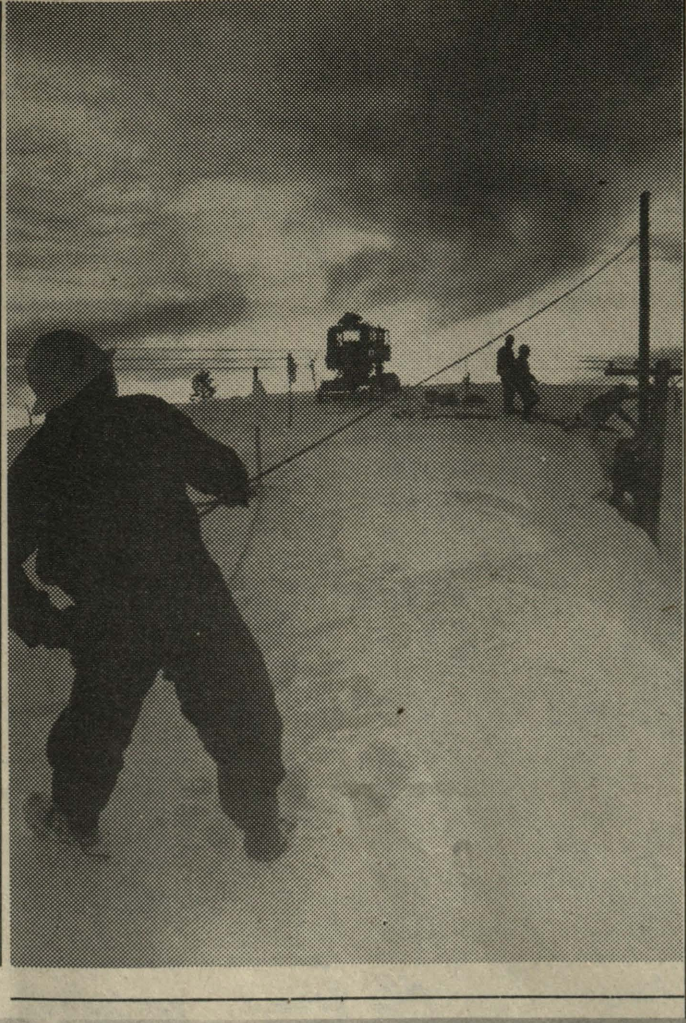
Would you like to know how Christian Science heals?

Come to this Christian Science Lecture
The public is invited to a Free Christian Science Lecture.
"Is There A Way Out?" by Martin Broones, C.S.B.
at Plaza II Theatre, 2501 S. Winchester Blvd., Campbell
Saturday, February 14th at 10:30 a.m.





BURYING A PROBLEM---Another winter's at hand...which lends interest to these "then" and "now" photos attesting to the severity of high Sierra snow problems which reached a climax last February.

Pacific Gas and Electric Company troubleshooters battled mountainous snowdrifts near Boreal Ridge in California's Nevada County, in this case (left photo) installing a 20-foot extension on a 40-foot pole to lift the power line and eliminate a hazard to skiers.

At the right is the same pole today -- extension still in place -- as it's about to be "retired" from service. PG&E has installed underground cable to replace the pole line and improve service reliability in the Donner Summit area.

GARAGE SALE

Boy Scout Troop No. 334 will hold a garage sale Saturday, Feb. 7 at 680 Cambrian Dr., Campbell, from 8 a.m. to 5 p.m.

Proceeds of the sale will go into the troop fund to purchase badly needed camp equipment for the troop. Anyone having articles to donate to the sale may call 377-3738.

DID YOU HEAR IT?---An advanced steering system for the booster stage of the nation's most powerful military space launch vehicle was successfully tested in Coyote last Saturday for the Air Force Space and Missile Systems Organization (SAMSO) by United Technology Center, an associate contractor for the Titan III program.

For the test, UTC static fired a powerful seven-segment rocket motor which produced 1.4 million pounds of thrust. The test rocket stands 101 feet tall and weighs 350 tons. During its approximate two minutes of firing, the experimental steering system was operated successfully several times.

KLAMATH

The Klamath River carries more water than any other California river with the exception of the Sacramento.

PROMOTED

Larry A. Fox, son of Mr. and Mrs. George C. Fox, 2104 Lamiel Way, Campbell, has been promoted to sergeant in the U. S. Air Force.

Sergeant Fox, a fire protection specialist at Pleiku AB, Vietnam, is assigned to the 633rd Civil Engineering Squadron.

The sergeant is a 1965 graduate of Westmont High School. His wife, Beverly, is the daughter of Mr. and Mrs. Alfred Brand, 17731 McKinnon Dr., Saratoga.

CIGARETTE TAX

State Controller Houston I. Flournoy has reported the distribution of $3,067,373 to counties and cities as the December apportionment of cigarette tax.

Santa Clara County's share was $21,053.87, and Campbell City's share was $4,155.18.

SPECIAL

T.I.P. IS HERE!

Money Saving Notice

tip top TAX INFORMATION PLAN

IF YOU ARE A TAXPAYER you may be eligible to save 16% or more on hundreds of drug store items.

Our special service can help you do it.

Have you taken all the deductions for family health needs allowed you under Federal Income Tax law? Most people don't . . . simply because receipts get lost or misplaced and very few people know the wide variety of pharmacy items which are deductible.

BUT NOW our pharmacy has a free Tax Information Plan which could mean dollar savings at income tax time. Remember, a taxpayer whose medical expense deductions exceed one per cent of his income gets back 16 cents on every $1.00 spent on health needs.

Our customers now receive a monthly and annual total of all tax deductible purchases. This very same information is important in substantiating expenses under a medical insurance program.

Most people remember that health supplies ordered by a physician qualify, but below there is a list of some of the thousands of products which are also deductible.

Remember, the Federal Government wants you to pay only what you actually owe . . . no more . . . no less. Use TIP for accuracy and to assure yourself of the maximum dollar benefit allowed by law.

NEW "Y" BUILDING---Campbell educator Dick Leyva (left) San Tomas elementary principal. and John Morgan (right), Campbell chief of police, "dig in" at groundbreaking ceremonies for the Southwest YMCA's new leadership building. Leyva, a member of the Southwest Y board of managers, and Morgan, chairman of the board, are encouraged in their efforts by Jack Busse, assistant general director of the Metropolitan YMCA, and Jon (cq) Simmons, 10-year-old Gra-Y member. The $186,800 building is scheduled for full use by late summer.

YMCA breaks ground for new building

Construction of a new YMCA leadership building to serve Campbell area youth will begin in a few days and be ready for use sometime this summer.

Groundbreaking ceremonies for the $186,800 building were held recently near the front of a 5-acre parcel at 16500 Mozart Ave., Los Gatos. The site was bought more than two years ago.

The new building, of concrete tilt-up design and with strong functional lines, will be located in front of the converted residence that now houses Southwest YMCA activities for more than 6,000 area youths.

The Southwest is a branch of the Metropolitan YMCA of San Jose and the Santa Clara Valley, a United Fund agency.

Scheduled occupancy time is late summer, according to branch building committee chairman Keith MacBeth of Los Gatos and John Morgan, Campbell chief of police, chairman of the Board of Managers.

Construction time is 150 days, with the extra time needed to install furniture and equipment.

Funding for the building, on the site of a former apricot and walnut tree orchard, came from the capital fund campaign two years ago.

The bulk of the 5,800 square feet of space will be devoted to program rooms, club meetings and equipment storage. Only 1,800 square feet will go to staff office space.

The project includes parking stalls for 60 cars and landscaping with lawn, trees and shrubbery. It is the first step in a three-phase program to offer better facilities to youth of Campbell, Los Gatos, Cambrian Park, Saratoga and West San Jose.

The next phase involves addition of a large multi-purpose room and kitchen and the third step an indoor swimming pool, gym, handball courts and shower and locker facilities.

Janes Construction Co. of Mountain View is building the center

WVC cage team meets Marin; then Solano

West Valley College's pressing defense and multiple offense will be tested Wednesday night when the Viking cagers journey to Kentfield to challenge the College of Marin Tars. The game will be the first in the second half of the Camino Norte Conference season.

Valley hosted Marin in the league opener on Jan. 3 and posted a 78-66 win over the tall Tars. But COM is tough on their home floor as they pushed loop leader DeAnza last Saturday but fell short 75-70. Marin is now 3-4 in the conference.

The Vikes top scorer, Joe Gallagher, holds a 24 point CNC average but the 6'4" center will have a time shooting over Marin's 6'6" Tom Seidenburg. Other Tar frontliners are 6'4" Pat Shafer and 6'2" Daryl Ravani. West Valley combats with guards Doug Oliver, Herb Hodgins, and Mike Berch and forwards Steve Gera, Rick Menden and Byron Woodhead, all fine shooters in an offense that can put anyone in double figures.

Solano will take on the Vikes Saturday night at the Campbell High gym, still looking for their first CNC win. WVC downed the Falcons in action earlier this year 89-62 in Vallejo. The visitors will count heavily on the high scoring of Buell Gonzales this weekend.

West Valley now holds down the number three spot in the Camino Norte heap behind top notchers Contra Costa and DeAnza, each boasting 6-1 records. The Vikings take a 5-2 mark into play this week.

College honors Campbell woman

When California Baptist College celebrates Founders' Day and Homecoming on Feb. 6-7, two San Jose area graduates, Mrs. Thelma Dunlap Moyer, 1163 Springfield Dr., Campbell, and Mrs. Joan Chatham Lapa, formerly of San Jose, will be honored by induction into Alpha Chi, national honor scholarship society.

Ceremonies for Alpha Chi are set for 2 p.m., Feb. 7 in the college chapel. Mrs. Moyer, now technical librarian at Ames Research Institute, Moffett Field, was graduated from California Baptist College in 1967, and earned the M.A. in librarianship from San Jose State College, where she is now working toward the MBA degree.

Mrs. Lapa, a graduate of the class of 1968, is now living in San Antonio, Texas.

THIS ONE DIDN'T GET AWAY --- "Ski" Kavaleski, owner of Ski's Royal Furniture, 287 E. Campbell Ave., has a new ornament on his office wall these days, and it's not for sale. Above, Ski holds the 38½ lb., 43 inch striped bass he caught recently while fishing off Rodeo. Ski reports he was using a 25 lb. test line with a Penn 30 reel and using bullheads for bait. The large fish put up a 15 minute struggle before being boated.

CONGRATULATIONS

Dr. Wayne Buck, former Campbell High School graduate, has just been elected president of the American Academy of General Practitioners in Santa Clara County.

Dr. Buck served as chief of staff of the Campbell Community Hospital and maintains offices on Westwood Drive. He is married and the father of three children and is the son of Mrs. Evelyn Buck and the late Earl Buck of Campbell.

MEXICAN VACATION

Mr. and Mrs. Herb Binley and Mr. and Mrs. LBen Howard are enjoying a wonderful winter vacation in Mexico.
